**Responses to all questions and the answers should not exceed 250 words per response.**

**1. Personal presentation**

My name is Annelie Jansson and I live in Mölndal close to Gothenburg. I am 48 years old and spend my days at work, and my spare time with my family. Love to meet new people and to have many projects going on, especially at home!

**2. My professional career and current work position**

I currently work as a project manager at VGR, Västra Götalandsregionen. I have been in this organisation for 4 years now. Love the challenges I meet in all new projects we execute. Before that I worked in the telecom industry, and my latest position was within Eltel Networks as a project manager. I have a MBA degree within Economics.

**3. Family and what I do on my spare time:**

I live in a house with my family, including my fiancée Andrew and our two children Isabella 16, and Lovisa 13. We like to spend time together doing sport activities or travelling. We will soon go skiing in the Swedish mountains, in February 2016. We also have a family cat named Ludde.

**4. Value that I bring to PMI**

I started to work within PMI 2011 when the West branch arranged the first PFP (Passion for Projects). Since then I have been responsible for organizing seminars in the Gothenburg area for

our members. That includes coming up with interesting ideas for seminars, planning them, as well as taking care of all practical issues like giving the PMI members their PDU:s. I really appreciate to meet other PM colleagues, having the same role within many different fields. Since August 2015 I act as the 'deputy' branch chair for the West branch. This is a new interesting challenge for me, which gives me a great chance to cooperate with all PMI volunteers in the west, as well as plan for the west branch to grow and move forward.

**5. Why volunteering for PMI is important for me**

You really feel that you can be a part of creating a good arena for project managers when you volunteer within PMI Sweden Chapter. As an active member within PMI you meet other PM professionals, and both you and colleagues can learn and grow along the way. During 2016 we plan to stabilize the organization in the west branch and arrange seminars etc, giving value for our members.
